FERVENT IN SPIRIT

SEELEY D. KINNE

(The present dealings of the Lord with me are very wonderful, for I am dealt with by Him almost constantly. It is glorious to be brought up into a place in

the Lord where you are at peace with Him, and enjoy His fellowship and approval, though I am ashamed to say, I sometimes have to be reproved by the Spirit.)

The aspiration, inspiration and reaching after God that are aroused in us by the workings of the Holy Spirit should be valued very highly, and cherished most zealously. Yet so often we are negligent toward them, though they mean life eternal to us. It seems so strange that men will be earnest and diligent about all earthly matters, yet careless and indifferent concerning eternal interests. An earnest, continuous and constantly sustained seeking after God and His will is to our best welfare, and sure to be richly rewarded. Rewards in eternal values are incomparably above any monetary consideration.

It should be observed that most people stop at the beginning of spiritual advancement. For that reason their attainments are only of a school boy quality. So we have the sad sight of a world of many master men in every line of science, arts, invention, business, education and all things earthly; but in godliness, in heavenly science or attainment, why so neglectful of true riches; and if we are faithful in earth matters, why neglect eternal wealth and well-being?

Ability to properly estimate spiritual values, and weigh heavenly riches seems sadly lacking in most of us. May we not safely conclude they are lightly regarded by most of us? Why should our vision be clouded and blurred by the many shimmering, bright, reflecting illusions of fleeting time, till we scarce can see or care for that enduring substance which is everlasting and unending? Why allow

sight to be so dimmed we can scarcely see the heavenly? What a fearful deception has Satan perpetrated upon those who choose worthless and bogus counterfeits, the while neglecting true and enduring riches?

Did ever you stop to meditate carefully and consider seriously how often, how widely and how deeply you have been fooled by your arch enemy, and persuaded to choose the wrong and neglect your own best welfare? Is it not high time to examine where, what and how your present neglect will affect and land you?

If you are earnest about the matter; if you will make strong appeal; there will appear to your aid a Guide of wisest mien. The Holy Spirit, with bright flash-light shining upon your inner sight, will clear the mists away and lead you out of perplexities into clear light and understanding. You will find yourself in the hands of a competent Guide who has the very highest concern for your welfare. He will engage to conduct you through all doubts, perplexities and misgivings, till you are settled upon the solid ground of Divine revelation and impartation. He will teach you to receive from God that which is enduring and substantial; and He will teach you how to separate from and decline the suggestions of the enemy, to curb the imaginations of your own mind, and to continue till you are firmly established in the heavenly way.

Some Van Winkles Never Wake Up
